

## **PT. Indo-Rama Synthetics Tbk**

### **Vendor Development Program**

The purpose of our Vendor Development Program is to support the development of local vendors in Indonesia, which is an important national priority also.

1. Vendors provide products and services to support our business activities.
2. Our objective is to source locally as much as possible the products and services used in our manufacturing activities, and over time to increase the share of local products and services in our total business expenditure.
3. We are committed to evaluating and qualifying new local vendors continuously based on parameters of cost, quality, and cycle time.
4. We are committed to supporting the development of local capability by sharing information, knowledge, and best practices with local vendors.
